TO WHOM IT MAY CONCERN

I have known Adrian Pirone through my business Milankov Designs & Project Management Pty Ltd for in excess of 20 years.

Adrian is a highly regarded Builder that has undertaken the construction of prestigious projects and shown capability in managing and supervising Building Contracts to a value of over \$5 million.

We have found Adrian has capably performed the following roles:

- a) Direct and control of all site building work to residential and commercial buildings.
- b) Management and direction to subcontractors and authorisation of payments to suppliers.
- c) Full authority to authorise the rectification of building defects during construction.
- d) Quality control, materials, scheduling, work programming.
- e) Responsibility for BCA/NCC code compliance, OSH and other contractual obligations.
- f) Set out jobs, installation of gas, power and water services etc.

The projects on which Adrian performed these roles were new residential and structural alterations and additions to residential and commercial buildings.

Adrian is trustworthy, capable and shows an eagerness to co-operate and solve problems if and when they arise. He exemplifies the utmost level of expertise, professionalism and skill and I would not hesitate in recommending Adrian to any person who may require a reference.

Yours faithfully

George Milankov
Director / Milankov Designs & Project Management Pty Ltd.
