## **TO WHOM IT MAY CONCERN**

I have been doing structural engineering design work for Adrian Pirone of Pirone Builders for over ten years. Over that time, I have been the structural engineer for many large and small industrial projects for which Adrian Pirone has been the supervisor.

I have inspected all the projects during construction and have always found the work complies with my structural engineering drawings and is of a high standard. From past performances on building projects where I was the structural engineer, I have no hesitation in recommending Adrian Pirone of Pirone Builders as a quality builder.

Yours truly,

C A Condipodefo

(Structural Engineer)
