To Whom it may concern,

I met Adrian in March 2019 while inspecting a new warehouse that was under construction at 8 Enterprise Court, Canning Vale Perth, the warehouse was close to a midway point of completion and looked like it wouldn't be completed within the timeline I had for our relocation.

Adrian had stated that if we wanted this warehouse he and his team would have it completed for us within the time frame. I must say that was sceptical, there just seemed too much to do. So, we committed to the warehouse as long as it was ready for early access 15th April.

I was pleasantly surprised at the speed that Adrian and his team had completed the project, and on time. I thought the entire process was smooth and Adrian was very accessible and kept us in the loop.

I recommend that you use Pirone Builders for any construction you may need, extremely high quality workmanship, accessories and fittings used are excellent, absolutely first class. The offices and warehouse are finished to a standard you would find in a display home.

Thank you Adrian.

Kind Regards
